Chairman's Letter

Dear Shareholders,

Peace be Upon You, so as Allah's Mercy and Blessings

It is my pleasure to present the 26th annual report of Jordan Mortgage Refinance Company (JMRC), which reflects its most important achievements during the year 2022 and shows its financial position as at the 31st of December 2022 through its balance sheet and final accounts and highlights its future action plan.

JMRC had been established with joint efforts of the public and private sectors and it represents one of the important aspects for restructuring the housing sector in the kingdom, which is considered one of the main sectors of the national economy.

JMRC also constitutes a new and important link between money market and capital market through its provision of medium and long-term finance to local banks and financial institutions that grant housing loans, from its different financial resources, and most important of which is the proceeds of JMRC bonds issues in the local capital market.

JMRC's operation mechanism, through refinancing housing loans, provides banks and financial institutions with the opportunity to increase their participation in granting housing loans with better terms and subsequently expand housing loans base in the kingdom especially for citizens with middle and low incomes, enabling them to own suitable houses, Moreover, JMRCs loans enable banks and financial institutions to manage their assets and liabilities more efficiently through matching the terms of their resources and the using of their funds.

Dear Shareholders,

Despite the difficult economic conditions the country and the whole world are going through, however the year 2022 came as a complementary to JMRC's achievements that was made during the last period, JMRC was able to move forward towards achieving its goals in developing the housing finance market and the capital market in the kingdom.

Dr. Adel Al-Sharkas Chairman of the Board of Directors

In confirmation of this, JMRC efforts paid off during the year 2022 by in granting (166) million JD so that the total value of loans granted by JMRC since the inception of its business had reached (2.306) Billion JD. While the balance of refinance loans as at 31 December 2022 amounted to (612.500) million JD, which is the highest balance since inception.

During 2022 JMRC issued bonds in the amount of (161) million JD in the local capital market, as such, the value of bonds, issued since the beginning of JMRC's operations, reached (2.392) Billion JD. The outstanding balance of JMRC bonds issued as at 31 December 2022 amounted to (592.500) million JD.

The value of the loans granted by JMRC to banks and financial institutions along to the volume of bonds issued during 2022 is considered to be an important enhancement of JMRC's role in improving and developing the housing finance market and capital market in the Kingdom. Over and above that JMRC is looking to extend its activity further in the secondary mortgage market by increasing the volume of its operations in refinancing housing loans and issuing bonds for different terms.

Dear Shareholders,

In conclusion I would like to extend my sincere thanks and appreciation to our dear shareholders and their representatives, fellow board members for their contribution to JMRC's achievements, and on behalf of myself and the members of the board of directors allow me to extend thanks and appreciation to JMRC's general manager and all its employees for the efforts they are making in order to achieve JMRC's results and goals, Here I should not forget to extend my sincere thanks and appreciation to the Central Bank of Jordan For the support and assistance JMRC receives to enable it to carry out its vital economic role, praying to God Almighty to help us all assume responsibility, serve the country, may God Almighty preserve this country under the leadership of Majesty King Abdullah II Ibn Al Hussein.

Peace be Upon You, so as Allah's Mercy and Blessings

Dr. Adel Al-Sharkas Chairman of the Board of Directors

Report of the Borad of Directors

Report of the Board of Directors

Incorporation

JMRC is a public shareholding limited company. It was established in mid-1996 upon the government's approval on the housing sector reconstruction project that stated the necessity of founding a company to develop and improve the housing finance market in the kingdom and was done with the cooperation of the International Bank for Reconstruction and Development and the support of the Central Bank of Jordan.

Objectives:-

The following are the most important objectives JMRC seeks to achieve:-

- Develop and improve the housing finance market in the Kingdom through providing medium and long-term financing for Banks and Financial Institutions to increase their participation in granting housing loans and encourage competition among them to improve loans terms and make it easier for the citizens to help them own the suitable residence.
- Promote and develop the capital market in the Kingdom through issuing bonds in the local capitalmarket and thus contribute to increase investment instruments in the market.
- To open an Islamic window for providing medium and Long- term loans for Islamic banks and institutions willing to extend housing loans.

Sources of Funds:-

- Paid-up capital amounting (12.5) million JD.
- Proceeds of JMRC's bonds issued in the local capital market which have priority in repayment over the other company's obligations.
- Central bank of Jordan Loan with a total outstanding balance amounting (21,039,129) JD at the end of 2022.

Operation Mechanism

JMRC provides medium and long-term finance for banks and financial institutions operating in the Kingdom through refinancing housing loans granted by these institutions to citizens according to JMRC's policy which has specified the principles and criteria that ought to be available in the borrowing financial institution and in the housing refinance loan.

To guarantee the loan obtained by the bank from the company, the bank endorses its first preferred property mortgage deeds pertaining to the housing loans granted by it in favor of the company at the specialized registry department while the remaining values are not less than (120%) of the value of JMRC's loan granted to the bank, provided that the housing loans granted by the bank shall not be under any installments due and that the bank to transfer alternative mortgage deeds throughout the life of JMRC's loan to the bank.

In accordance with JMRC's credit policy the bank is also permitted to provide temporary collaterals until it can provide the company with necessary mortgages deeds. The most important of such temporary guarantees are The Jordanian Government bonds or bonds guaranteed by the Government, treasury bills and JMRC's bonds and also authorization to debit the bank's account in the central bank of Jordan in favor of JMRC.

JMRC's loans to banks shall be repaid in one installment on its maturity date and the interest shall be paid semiannually. In special cases, the principal loan and loan interests are paid periodically.

JMRC also adopted a mechanism to grant financial leasing companies owned by banks loans to refinance real estate loans, the value of loans granted to these companies during 2022 was (16) million JD.

Loans granted to banks enable these banks to increase its participation in the housing finance market and minimize the risks of mismatching between the sources and uses of its funds and encourage competition among these banks, which would eventually be in the interest of citizens.

The company provides the funds necessary for its lending activity from the proceeds of selling its bond issues in the local capital market with sizes and ranges corresponding to the refinancing loans and with the company's cash flows and at fixed or variable interest rates for each interest period during the period of the bond - and as the case may be - whether by bidding or specifying Prior to interest rate through private placement or public offering, and issues can be extinguished in one batch or in batches that coincide with the company's cash flows, after obtaining the necessary approval from the Securities Commission. The company plays the role of issuance manager to support the bonds issued by it or through specialized bodies in issuance management.

Benefits of Borrowing from JMRC

- Improve Bank's assets and liabilities management, through better matching of sources and uses of its funds (ALCO).
- Avoid interest rates risks (IRR) on mortgage loans.
- Allocate more funds to be granted for housing loans as the housing loans refinanced by JMRC are excluded from the percentage determined under the Bank's Law, which indicates that the loans granted for construction and purchase of real estates shall not exceed 20% from the total bank's deposits in Jordanian dinar.
- Improve the capital adequacy ratio as housing loans granted by the bank & refinanced by JMRC, are risk weighted at (20%), not exceeding refinance loans granted by JMRC to the bank.

Benefits of Investing in JMRC Bonds

- JMRC's bonds are risk-weighted at (20%) for the purpose of calculating the capital adequacy ratios of banks.
- JMRC's bonds are eligible to serve as liquidity reserve holding of banks for the purpose of calculating the legal liquidity ratios as required by the Central Bank of Jordan.
- JMRC's bonds are tradable through securities depositary center.

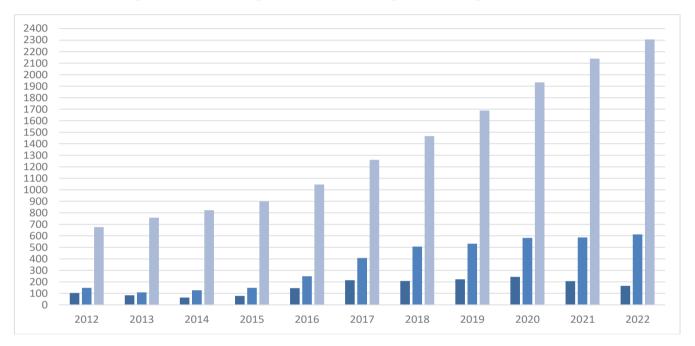

JMRC Achievements during 2022

In the area of refinancing of housing loans

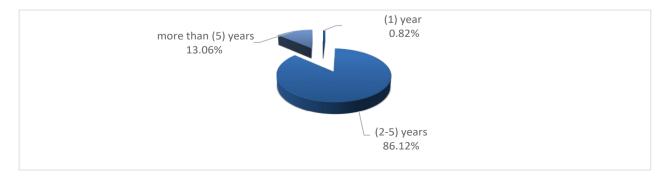

In 2022 JMRC continued its lending activity and signed (16) refinance loans agreements with (11) financial institutions for an amount of (166) million JD, therefore the refinance loans agreements signed since JMRC inception are (366) agreements with a total amount of (2.306) billion JD, the balance of refinance loans on 31/12/2022 was (612.500) million JD which is the highest balance since inception.

The following Chart shows the growth of Refinancing loans during the period 2012 to 2022:-

	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
Refinance loans granted annually	103	83	64	77.5	146	214	207.5	222	243.5	207	166
Refinance loans balance	148.542	108.288	127.534	148.780	248.025	407.711	506.517	531.263	582.509	585.254	612.500
Refinance loans granted since inception	675.146	758.146	822.146	899.646	1045.646	1259.646	1467.146	1689.146	1932.646	2139.646	2305.646

The following diagram shows the distribution of outstanding refinance loans as at 31/12/2022 according to the term of the loan:-

JMRC Projected Action Plan

To complement the company's achievements during the year 2022, here is the future plan JMRC aims to achieve during 2023 and the coming years:

- 1. Enhancing the company's role in the secondary mortgage market in line with the developments in the real estate financing market.
- 2. Encouraging banks to increase their participation in granting housing loans at fixed interest rates.
- 3. Increasing the company's issuances of bonds in order to provide funds for its default activities, in addition to working to expand the investors base in the coming issues.

During 2023 the Company expects to extend refinance housing loans in the amount of (154) million JD. The necessary funds for such transaction shall be provided by issuing bonds in the local capital market and from JMRC other Resources .

JMRC Governance Report for the Year 2022

Jordan Mortgage Refinance Company Corporate Governance Report for the year 2022

1. Information and details related to the application of the provisions and instructions of the governance of listed shareholding companies and the rules of corporate governance in the company:

Jordan Mortgage Refinance Company has a regular set of relationships with the Board of Directors, shareholders and all other related parties, and these relationships address the general framework of the company's strategy and the means necessary to implement its objectives. The general framework for corporate governance ensures fair treatment based on equality among all shareholders. The rights of shareholders defined by the law, and it confirms that they are provided with all important information about the company's activity, and that the members of the Board of Directors adhere to their responsibilities towards the company and the shareholders.

In this regard, JMRC has done the following: -

- Preparing the JMRC's corporate governance guide. The Governance Committee emanating from the Board of Directors annually reviews the company's corporate governance manual and work procedures to assess the extent of compliance with the application of the rules of good governance in the company and recommend to the Board in particular.
- Providing disclosure information to shareholders and investors in an accurate, clear, and not misleading manner, in specified times, in accordance with the requirements of the regulatory authorities and the legislation in force, enabling them to take their decisions.
- 3. Using its website on the Internet to enhance disclosure, transparency, and provision of information.

In addition, the Board of Directors has approved a special internal system that is reviewed annually, according to which the duties, powers and responsibilities of the Board are determined in detail, and the company has also approved an evaluation form that addresses questions that indicate the extent of the company's commitment to implementing the instructions of governance.

2. Formation of the Board of Directors

The Board of Directors of JMRC consists of (11) members, the government of the Hashemite Kingdom of Jordan / Central Bank appoints (1) member to the board of directors of the company, and the official public institutions appoint (2) of them to the Board of Directors in proportion to their contribution to the company's capital, and the remaining members are elected By the General Assembly of Shareholders.

On June 22,2020 the JMRC's general assembly elected a new board of directors.

INDEPENDENT AUDITOR'S REPORT

To The Shareholders of Jordan Mortgage Refinance Company Public Shareholding Company Amman - Jordan

Opinion

We have audited the financial statements of Jordan Mortgage Refinance Company PLC, which comprise the statement of financial position as at 31 December 2022, statement of profit or loss, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the Hashemite Kingdom of Jordan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

(1) Provision for Expected Credit Loss

Included in the accompanying financial statements at the end of the year 2022 financial assets totaling JOD (619,290,381), as the provision for the expected credit loss of these financial assets are dependent on the management's estimates of different variables, the adequacy of the provision is considered a key audit matter. The audit procedures performed by us to address this key audit matter included inquiring from management about the methodology used in calculating the provision and assessing the reasonableness of estimates and assumptions used by the management in calculating the provision amount. We have also inquired about the management's collection procedures and the amounts collected post year end.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements
 regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to
 bear on our independence, and where applicable, related safeguards.
- From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

The Jordan Mortgage Refinance Company Public Shareholding Company as at 31 December 2022 maintains proper accounting records and the accompanying financial statements are in agreement therewith and with the financial data presented in the Board of Directors' report, and we recommend the General Assembly to approve it.

12 February 2023 Amman – Jordan

Russell Bedford

Jordan Mortgage Refinance Company Public Shareholding Company Notes to the Financial Statements 31 December 2022

(In Jordanian Dinar)

. General

Jordan Mortgage Refinance Company was established on 5 June 1996 in accordance with Jordanian Companies Law No. (22) Of 1997 and registered under No. (314) as a public shareholding company and was granted the operating license on 22 July 1996. The Company's head office is in the Hashemite Kingdom of Jordan and its main objectives are:

- Development and improvement of the housing finance market in Jordan by enabling licensed banks and other financial institutions to increase their participation in granting housing loans.
- Enhancement and development of the capital market in Jordan by issuing medium and long-term bonds.

The Company stocks are listed in Amman Stock Exchange - Jordan.

The financial statements were authorized for issue by the Company's Board of Directors in their meeting held on 8 February 2023.

? . Summary of accounting policies

Basis of preparation

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards.

The financial statements have been prepared on a historical cost basis except for investment securities, which have been measured at fair value.

The financial statements are presented in the Jordanian Dinar, which is the functional currency of the Company.

The accounting policies are consistent with those used in the previous year, except for the adoption of new and amended standards effective as at the beginning of the year.

Adoption of new and revised IFRS standards

The following standards have been published that are mandatory for accounting periods after 31 December 2022. Management anticipates that the adoption of new and revised Standards will have no material impact on the financial statements of the Company.

Standard No.		Effective Date	
IFRS 17	Insurance Contracts		1 January 2023

Jordan Mortgage Refinance Company PLC Notes to the Financial Statements (Continued) 31 December 2022

Use of estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amount of financial assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the revenues, expenses and the provisions. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty and actual results may differ resulting in future changes in such provisions.

Management believes that the estimates are reasonable and are as follows:

- Management reviews periodically the tangible assets in order to assess the depreciation for the year based on the useful life and future economic benefits. Any impairment is taken to the statement of profit or loss.
- The measurement of impairment losses under IFRS 9 requires judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances. Elements of the expected credit loss model that are considered accounting judgments and estimates include Probability of default (PD), Loss given default (LGD) and Exposure at default (EAD).

Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purposes of the Cash flow statement, cash and cash equivalents comprise of cash on hand, deposits held at call with banks, other short - term highly liquid investments.

Financial assets at fair value through other comprehensive income

These financial assets represent investments in equity instruments held for the purpose of generating gain on a long term and not for trading purpose.

Financial assets at fair value through other comprehensive income initially stated at fair value plus transaction costs at purchase date.

Subsequently, they are measured at fair value with gains or losses arising from changes in fair value recognized in the statement of other comprehensive income and within owner's equity, including the changes in fair value resulting from translation of non-monetary assets stated at foreign currency. Gain or Loss from the sale of these investments should be recognized in the statement of comprehensive income and within owner's equity, and the balance of the revaluation reserve for these assets should be transferred directly to the retained earnings and not to the statement of profit or loss.

These assets are not subject to impairment testing.

Dividends are recorded in the statement of profit or loss on a separate line item.

Financial assets at amortized cost

They are the financial assets which the Company's management intends according to its business model to hold for the purpose of collecting contractual cash flows which comprise the contractual cash flows that are solely payments of principal and interest on the outstanding principal.

Those financial assets are stated at cost upon purchase plus acquisition expenses. Moreover, the issue premium / discount are amortized using the effective interest rate method, and recorded to the interest account. Provisions associated with the decline in value of these investments leading to the inability to recover the investment or part therefore are deducted, and any impairment loss in its value is recorded in the statement of profit or loss.

The amount of the impairment loss recognized is the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate.

It is not allowed to reclassify any financial assets from / to this category except for certain cases specified in the International Financial Reporting Standards (in the case of selling any of these assets before its maturity date, the result should be recorded in a separate line item in the statement of profit or loss, disclosures should be made in accordance to the requirements of International Financial Reporting Standards).

Fair value

For fair value of investments, which are traded in organized financial markets, is determined by reference to the quoted market bid price at the close of the business on the statement of financial position date. For investments which are listed in inactive stock markets, traded in small quantities or have no current prices, the fair value is measured using the current value of cash flows or any other method adopted. If there is no reliable method for the measurement of these investments, then they are stated at cost less any impairment in their value.

Trading and settlement date accounting

Purchases and sales of financial assets are recognized on the trade date, i.e. the date on which the Company commits its self to purchase or sell the asset.

Property and equipment

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment loss. When assets are sold or retired, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is included in the statements of profit or loss.

The initial cost of property and equipment comprises its purchase price, including import duties and nonrefundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the fixed assets have been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to income in the period the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment.

Depreciation is computed on a straight-line basis using the following annual depreciation rates:

Buildings	2-20%
Furniture & fixtures	15-25%
Vehicles	20%
Computers	30%

The useful life and depreciation method are reviewed periodically to ensure that the method and period of deprecation are consistent with the expected pattern of economic benefits from items of property and equipment.

Loans and bonds

Interest on long-term loans and bonds are recorded using the accrual basis of accounting and recognized in the statement of profit or loss.

Accrual accounts

Accrued payments are recognized upon receiving goods or performance of services.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

Provision for end of service indemnity

The provision for end of service indemnity is calculated based on the contractual provisions of the employment.

Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and the Company intends to either settle them on a net basis, or to realize the asset and settle the liability simultaneously.

Revenues

Revenues from sale of goods are recognized when control transferred to the buyer, while revenues from rending services are recognized over time and according to percentage of completion. In all cases, it is necessary that the amount of revenue can be measured reliably.

Interest is recognized on a time proportion basis that reflects the effective yield on the assets.

Dividends are recognized when the Company's right to receive payment is established.

Other revenues are recorded according to the accrual basis.

Income tax

Income tax expenses are accounted for on the basis of taxable income. Taxable income differs from income declared in the financial statements because the latter includes non-taxable revenues or disallowed taxable expenses in the current year but deductible in subsequent years, accumulated losses acceptable by the tax law, and items not accepted for tax purposes or subject to tax.

Taxes are calculated on the basis of the tax rates according to the prevailing laws, regulations, and instructions of the countries where the Company operates.

3. Cash and cash equivalents

	2022	2021
Cash at banks	2,335,400	9,428,389
Deposits held for period less than 1 month	2,769,763	-
Deposits held for period less than 3 months	-	4,480,237
	5,105,163	13,908,626
Provision for expected credit losses	(2,683)	(2,683)

2021

55,000

19. Basic and diluted earnings per share

	2022	2021
Profit for the year Weighted average number of shares	4,442,234 12,500,000	4,318,117 12,500,000
weighted average number of shares	0.355	0.345

20 . Executive management remuneration

The remuneration of executive management during the years 2022 and 2021 amounted to JOD (335,612) and JOD (336,400) respectively.

21 . Segment reporting

The Company is engaged mainly in one activity which is mortgages refinancing within the territory of the Hashemite Kingdom of Jordan.

22 . Income tax

The movement on provision for the income tax during the year is as follows:

	2022	2021
Balance at beginning of the year	1,349,447	1,149,079
Income and national contribution tax expense for the year	1,703,457	1,726,326
Income tax paid	(1,721,471)	(1,525,958)
Balance at end of the year (Note 13)	1,331,433	1,349,447

Income tax expense for the year in the statement of profit or loss consists of the following:

	2022	2021
Income tax expense for the year	1,460,106	1,479,708
National contribution tax for the year	243,351	246,618
	1,703,457	1,726,326

The following is the reconciliation between declared income and taxable income:

	2022	2021
Declared income	6,145,691	6,044,443
Tax exempted income	(179,478)	(40,947)
Tax unacceptable expenses	117,563	161,956
Taxable income	6,083,776	6,165,452
Income tax rate (Include the National contribution) Effective tax rate (Include the National contribution)	28% 27.7%	28% 28.6%

- The Company has settled its tax liabilities with the Income Tax Department up to the year ended 2018.
- The Income tax returns for the years 2019, 2020 and 2021 has been filed with the Income Tax Department, but the Department has not reviewed the Company's records till the date of this report.
- The Income tax and National contribution tax provision for the year 2022 were calculated in accordance with the Income Tax Law.

23 . Analysis of the maturities of assets and liabilities

The following table illustrates the analysis of assets and liabilities according to the expected period of their recoverability or settlement.

2022	Up to one year	From one to two years	More than two years	Not tied to maturities	Total
Assets					
Cash and cash equivalents	5,102,472	-	-	8	5,102,480

25 . Fair value of financial instruments

Financial instruments comprise of financial assets and financial liabilities. Financial assets of the Company include cash and cash equivalents, securities and refinance loans. Financial liabilities of the Company include bonds, Government's loans and accrued interest.

The fair values of the financial assets and liabilities are not materially different from their carrying values as most of these items are either short-term in nature or re-priced frequently.

Financial assets and financial liabilities measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observably of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

2022	Level 1	Level 2	Level 3	Total
Financial assets through other comprehensive income	827,750			827,750
2021	Level 1	Level 2	Level 3	Total
Financial assets through other comprehensive income	827,750			827,750

26. Financial risk management

Credit risk

Credit risk arises principally from banks' deposits and loans granted to the financial institutions to refinance housing loans. The Company limits its credit risk by adopting conservative lending standards and setting limits to its customers, noting that the Company does not bear any loss arising from any default in the refinanced loans, as it is carried out in full by the financial institutions. The maximum exposure to credit risk is represented by the carrying value of each financial asset.

The balance of the largest client amounted to JOD (120) Million for the year ended 2022 against JOD (105) Million for the year ended 2021.

Interest rate risk

Interest rate risk is the risk that changes in interest rates will affect the Company's income or the value of its holdings of financial instruments. As most of the Company's financial instruments have fixed interest rate and carried at amortized cost, the sensitivity of the Company's results or equity to movements in interest rates is not considered significant.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its net financial obligation. In this respect, the Company's management diversified its funding sources, and managed assets and liabilities taking into consideration liquidity and keeping adequate balances of cash, and cash equivalents and quoted securities.

The table below analysis the Company's financial liabilities into relevant maturity groupings based on the remaining period at the financial position to the contractual maturity date:

2022	Up to one year	From one to two years	More than two years	Not tied to maturity	Total
Bonds	154,000,000	245,500,000	193,000,000	-	592,500,000
Central Bank of Jordan loan	-	-	21,039,129	-	21,039,129
Accrued interest	6,151,352	-	-	-	6,151,352
Other liabilities	1,394,518	-	-	756,310	2,150,828
Total liabilities	161,545,870	245,500,000	214,039,129	756,310	621,841,309
Total Assets	166,296,530	255,621,959	224,465,321	1,253,485	647,637,295
2021	Up to one year	From one to two years	More than two years	Not tied to maturity	Total
Bonds	133,500,000	149,000,000	282,500,000	-	565,000,000
Central Bank of Jordan loan	-	-	20,014,027	-	20,014,027
Accrued interest	5,803,957	-	-	-	5,803,957
Other liabilities	1,444,215	-	-	818,226	2,262,441
Total liabilities	140,748,172	149,000,000	302,514,027	818,226	593,080,425
Total Assets	161,772,375	149,064,288	303,886,459	1,232,084	615,955,206

Equity price risk

Equity price risk results from the change in fair value of the equity securities. The Company manages these risks by investing in capital protected portfolios not exceeding 20% of its equity with reputable financial institutions in accordance with the investment policy set by the Board of Directors. If the quoted market price of listed equity securities had increased or decreased by 10%, the net result for the year would have been reduced / increased by JOD (82,775) for 2022 (2021: JOD 82,775).

27 . Capital management

The Company's management manages its capital structure with the objective of safeguarding the entity's ability to continue as a going concern and providing an adequate return to shareholders by investing the Company's assets commensurately with the level of risk.
